

# MOVINCOOL®

**Classic Series**

## Portable Air Conditioners

**Classic 10**

**Classic 18**

**Classic 40 & 60**

## ***MovinCool Classic Series Hits the Spot!***

Suitable for both spot cooling and portable air conditioning, the Classic Series offers maximum cooling at an affordable price. A variety of cooling options are available to suit a variety of application needs.

The Classic Series is ideal for warehouses, factories and workspaces with a cooling capacity range of 10,000 to 60,000 BTU/h. The Classic Series also has the ability to provide up to a 25°F temperature drop for maximum cooling. This series can handle the harshest environments and operating conditions, as well as extreme temperatures. Installation of the Classic Series is quick and easy - simply roll it into place, plug it in and turn it on!

## MOVINCOOL® Applications

- *Assembly Lines*
- *Industrial Processes & Manufacturing*
- *Warehousing*
- *Commercial Kitchens*
- *Air Transportation*
- *Factory Area Cooling*
- *Hospitals & Healthcare Facilities*

## ***Features and Benefits***

### **Built To Last**

The Classic Series has been the unit of choice in production and engineering environments for more than 20 years.

### **Completely Portable and Self-Contained**

The Classic 10 and 18 models easily maneuver into place for "one-man" portability.

### **Four Models To Suit Various Cooling Needs**

For large production areas rely on the cooling power of Classic 40 and 60 models. MovinCool's Classic 10 and 18 models provide either worker comfort or direct process cooling.

### **Reliable, Maintenance-Free Operation**

The original MovinCool Classic 10 and 18 models operate up to 105°F, while the Classic 40 and 60 are both capable of handling up to 115°F.

## Portable Air Conditioners

The Classic Series adapts easily for cooling needs ranging from machinery to the end-product.

### Industrial Applications

**Commercial Kitchens** – Rising temperatures from ovens and stoves can be alleviated with our portable air conditioners.

**Industrial Processes and Manufacturing** – For exact temperature control of process operations, look no further than the Classic Series.

**Air Transportation** – The Classic Series is equipped to provide ideal conditions for grounded aircraft during routine maintenance or pre-cooling.

**Hospitals and Healthcare Facilities** – An ideal, low-cost solution, the Classic Series portable air conditioners keep patients, staff and equipment comfortable.

Model	Cooling Capacity	CFM	Electrical Requirements	Operating Conditions	Net Weight (lbs.)	Dimensions H x D x W (in.)
<b>CL10</b>	10,000	270	115V, 1 phase	68 - 105°F	145/170	41 x 26 x 19
<b>CL18</b>	18,000	530	208/230V, 1 phase	68 - 105°F	167/200	41 x 26 x 19
<b>CL40</b>	39,000	1,060	220V, 3 phase	75 - 115°F	353/420	39 x 43 x 26
<b>CL60</b>	60,000	1,580	460V, 3 phase	75 - 115°F	463/545	42 x 49 x 32

*\*Office Environments require a warm air discharge kit.*

### Experience the TOPP Advantage

At TOPP, customers come first! We are committed to providing the highest quality products at the best possible prices. Our sales staff is dedicated to finding the best solution to your temperature control problem. Each project is individually specified and quoted, guaranteeing you receive personal service. Our technical staff is specially trained and certified to meet all industry standards in HVAC. We are on call 24 hours a day, 7 days a week, making it possible to provide you with service wherever and whenever it is needed.

*MovinCool Warranty: Standard warranty includes 12 months on entire unit (parts & labor) and 36 months on the compressor (parts & labor).*

*MovinCool, SpotCool and Office Pro are registered trademarks of DENSO corporation.*
