

Mobile Cool[®]

MOB-42-HP

Portable Commercial/Industrial Air Conditioner and Heat Pump

**Efficient, Versatile Temperature Control
with the Mobile Cool MOB-42-HP!**

The MOB-42-HP offers all-in-one services for air conditioning, dehumidifying or portable heating needs. Completely self-contained and portable, the Mobile Cool MOB-42-HP provides 42,000 BTU/h of cooling and 40,000 BTU/h of heating. This unit is UL listed for outdoor use and runs on 230V, single phase power.

Equipped with a 50-foot power cord, other features of the MOB-42-HP include 1 supply and 2 return air duct adapters. These features, plus optional remote thermostat and condensate removal system, make the unit ideal for diverse heating or cooling needs.

Cooling our troops in the Middle East.

Mobile Cool[®] Applications

- Building/Plant Maintenance
- Manufacturing
- Emergency/Supplemental Cooling
- Tents & Special Events
- Motion Picture Production
- Aerospace & Aviation Industries

TOPP[®]
PORTABLE AIR

Features and Benefits

Economical & Efficient

The MOB-42-HP offers an inexpensive solution to your temperature control applications without needing to install a costly central air conditioning system or duct work.

Completely Portable and Self-Contained

The MOB-42-HP is constructed with industrial-grade casters and built-in handles for ease and mobility.

Reliable, Maintenance-Free Operation

Quality from a name you can trust, each Mobile Cool unit is backed by a one-year warranty on the parts and compressor.

Rugged Design

The MOB-42-HP, like all Mobile Cool units, is ideal for harsh, industrial environments. Yet, the unit's sleek appearance suits any commercial or special event application.

MOB-42-HP

Portable Commercial/Industrial Air Conditioner and Heat Pump

Temperature Control for Multiple Applications

Versatile, portable, durable and reliable the MOB-42-HP is among the highest quality air conditioner/heat pump units on the market today. Suitable for any number of applications, the MOB-42-HP can be used practically anywhere.

Building/Plant Maintenance - Don't let fluctuating temperatures get in the way of worker productivity. The MOB-42-HP helps avoid plant shutdowns and work stoppages.

Tents and Special Events - Whether you need to cool things down inside a tent, or warm things up after sunset, the MOB-42-HP looks and works great at any special event application.

Aerospace & Aviation - The MOB-42-HP is ideal for aircraft pre-cooling, as well as cooling or warming hangars.

Motion Picture Production - When temperatures slow down production, the MOB-42-HP helps cool lighting and other important equipment.

Manufacturing - The MOB-42-HP can be used to cool machinery in production areas, spot cool employees or cool down manufacturing processes.

Helping to cool the troops in Kuwait.

Model	Cooling Capacity	Heating Capacity	CFM	Electrical Requirements	Current Consumption	Net Weight (lbs.)	Dimensions H x D x W (in.)
MOB-42-HP	42,000 BTU/h	40,000 BTU/h	1,400	230V, 1 phase	26.0 amps	475	41 x 57 x 33

Experience the TOPP Advantage

At TOPP, customers come first! We are committed to providing the highest quality products at the best possible prices. Our sales staff is dedicated to finding the best solution to your temperature control problem. Each project is individually specified and quoted, guaranteeing you receive personal service. Our technical staff is specially trained and certified to meet all industry standards in HVAC. We are on call 24 hours a day, 7 days a week, making it possible to provide you with service wherever and whenever it is needed.

Warranty: Standard warranty includes 12 months on unit parts and 60 months on compressor parts. No labor.
